Executive Summary

Hands-on Software developer with a passion to develop innovative program that expedite the efficiency and effectiveness of organizational success. Deep involved in technology and writing code to create systems that are reliable and user-friendly. Strategic thinker, and innovative creator to develop software that is customized to meet a company's organizational needs, highlight their core competencies, and further their success.

Experience

Zeomega Infotech Private Limited

October 2021 - Present

Software Developer

Project Name : Clicbank

I worked in multiple developments required in both front-end and back-end which involved Python and AngularJS.

Developed JSON Schemas for multiple requirements.

Involved in coding AngularJS unit tests for the corresponding development I work for.

Introduced with QTest Testing Platform to test various use-cases.

Gained knowledge with git and Jira. Agile methodology of the company

Apart from project, I was responsible in handling the User-management system which I developed using django.

Outcomes : UI/UX , Python, AngularJS, JSON schemas, RabbitMQ, MSSQL, QTest, Grunt.

Zeomega infotech private limited

July 2021 - September 2021

Software Developer Trainee

Worked in the development of User management system with Django framework and SQLite DB.

Integrating systems using Docker container.

Worked in setting up PyEnv (environment in which the code supports all the required versions of Python-3).

Front-end development using AngularJS framework.

Outcomes : Learned all about Python in-depth, Django framework, Flask, Pyramid, Docker, AngularJS.

Education

Hindustan Institute of Technology and Science

2017-2021

Bachelor of Technology in Information Technology

7.7 CGPA

Technical Skills

Operating System: Windows, Unix

Languages: Python, Java

Databases: MySQL, SQLiteDB, MSSQL, PostgreSQL

GUI: HTML5, CSS, JS

Framework: Django, AngularJS

Soft Skills

Problem solving & Time management

Creativity

Communication & Adaptive

Certifications

December 2021 Python Training Certification Course

January 2022 Get started with Web Development

January 2022 Create websites using Front and Back-end frameworks

October 2020 Production Machine Learning Systems

October 2020 End-to-End Machine Learning with Tensor Flow on GCP
